

Tayyab Ur Rehman

Frontend Developer | Full Stack Developer

rehmantayyab0340@gmail.com | (+92) 315-0626738 | [LinkedIn](#) | [github.com/tayyab](#)

SUMMARY

Frontend Developer with 2+ years of experience building production web applications using React.js, Next.js, Remix, and TypeScript. Currently working as a Full Stack Developer building AI-powered platforms, deploying on AWS, and integrating real-time services with WebSockets and MCP servers. Focused on building reliable software through clean architecture, automation, and collaborative engineering practices.

EXPERIENCE

Full Stack Developer

Mishkat Quantum Lab · Onsite

Karachi, Pakistan

Oct 2025 – Present

- Build and maintain full stack features for AI-powered platforms using Next.js, FastAPI, and AWS cloud services.
- Develop frontend interfaces including Chart.js analytics dashboards, video/audio transcription views, and Livekit WebSocket integrations.
- Collaborate with AI Backend Engineers on MCP server development, deployment pipelines, and AWS infrastructure (EC2, S3, Lambda, ECS).
- Contribute to LMS platform development and AI-powered report generation applications with real-time data visualization.
- Work on system design, infrastructure planning, AI specs, hooks, and requirements documentation using structured Markdown workflows.
- Support deployment and DevOps workflows using Docker, GitHub Actions, and CI/CD pipelines on AWS.

Frontend Developer

Crestotech · Remote

Islamabad, Pakistan

May 2025 – Apr 2026

- Developed and maintained the Shopify Wholesale Project using Remix, React.js, Shopify Polaris, and custom CSS with Prisma for backend integrations.
- Designed and delivered WordPress theme-based websites ensuring responsiveness, clean code, and client satisfaction.
- Collaborated directly with clients to convert Figma designs into responsive, high-quality frontend solutions.
- Built scalable, reusable UI components using React.js, Tailwind CSS, and Shopify Polaris with focus on performance and accessibility.

Frontend Developer

NestedFor Software

Islamabad, Pakistan

Nov 2024 – Apr 2025

- Created responsive and intuitive user interfaces for production web applications using React.js and modern frontend tools.
- Collaborated with cross-functional teams to convert design specifications into functional, maintainable frontend code.
- Developed reusable UI components ensuring seamless cross-device experiences for immigration clinic and travel booking platforms.

Frontend Developer

CodeSoft · Internship

Pakistan

Feb 2024 – Jun 2024

- Built logic for solving real-world frontend problems using JavaScript, React.js, and Redux.
- Developed reusable components with responsive designs and optimized performance for cross-device compatibility.

OPEN SOURCE PROJECTS

MCP Servers (GitHub, Jira & Discord)

GitHub

- Built Model Context Protocol (MCP) servers for GitHub, Jira, and Discord, enabling AI clients to interact with repositories, manage projects and issues, and communicate through standardized protocols.

PostKit — AI Workflow Framework (Contributor)

- Contributed to an open-source framework for modular AI-powered content creation workflows using reusable Markdown-based workflow definitions.

SKILLS

Languages	JavaScript, TypeScript, HTML5, CSS3, Python
Frontend	React.js, Next.js, Remix.js, Redux, Chart.js, Livekit, WebSockets
Styling	Tailwind CSS, Bootstrap CSS, Shopify Polaris, Custom CSS
Cloud & DevOps	AWS (EC2, ECS, Lambda, S3, SQS, SNS), Docker, GitHub Actions, CI/CD, Vercel
CMS & E-commerce	WordPress, Shopify (Polaris, Liquid, Prisma)
Databases	PostgreSQL, Prisma ORM
Engineering Practices	System Design, MCP Development, API Design, Workflow Automation, AI-Assisted Development

EDUCATION

University of Agriculture, Peshawar	2020 – 2024
Bachelor of Computer Science	

CERTIFICATIONS

- AWS Cloud Practitioner (In Progress)
- Certificate of Completing React.js — CodeSoft

TECHNICAL WRITING

- Building MCP Servers: Connect AI Clients to GitHub, Jira, and Discord
- Integrating Livekit WebSockets with Next.js for Real-Time Communication
